

ARM YOURSELF *for the* DIGITAL BATTLEFIELD

Certification courses for professionals on the front line of cyber security

Our nation's digital infrastructure is constantly being probed, tested and assaulted by new and evolving threats. As these threats continue to grow and multiply, the demand has also grown for accredited professionals in the fields of cyber operations and critical infrastructure protection who are skilled with the strategies and practices to mitigate these threats.

The George Washington University is a designated *Federal Center for Academic Excellence in Information Assurance Research* by the National Security Agency and the Department of Homeland Security. Courses are offered at GW's Virginia Science & Technology Campus located in Ashburn, VA. Up to 70% of the world's Internet traffic passes through Loudoun County on a daily basis.

CERTIFIED INFORMATION SYSTEMS SECURITY PROFESSIONAL (CISSP): JULY 21ST – JULY 25TH, 2014

This course is designed to provide students with an umbrella framework – the essential body of knowledge that integrates all of the professional best business practices, skills and abilities that cybersecurity professionals need to know. This course will also prepare students for professional CISSP certification (or become a CISSP Associate if students possess less than five years of experience in the field).

- ▶ Offered in collaboration with ITPG
- ▶ Bootcamp-style – train for your certification in only one week
- ▶ Earn four (4) undergraduate credits
- ▶ Includes a voucher for the CISSP exam
- ▶ Lunch included

ONLY \$2,980

Out-of-town students will enjoy discounts at hotels in proximity to the Ashburn Campus and Dulles Airport.
